

PATUBIGAN KOMIKS

SA TULONG NG NIA SASAGANA AT LULUSOG ANG PAMAYANAN

Impormasyon hatid ng: **NATIONAL IRRIGATION ADMINISTRATION**, Public Affairs and Information Staff, EDSA, Diliman, Quezon City
Sa pakikipagtulungan sa Institutional Development Division, Operations Department

Issue 03-2012

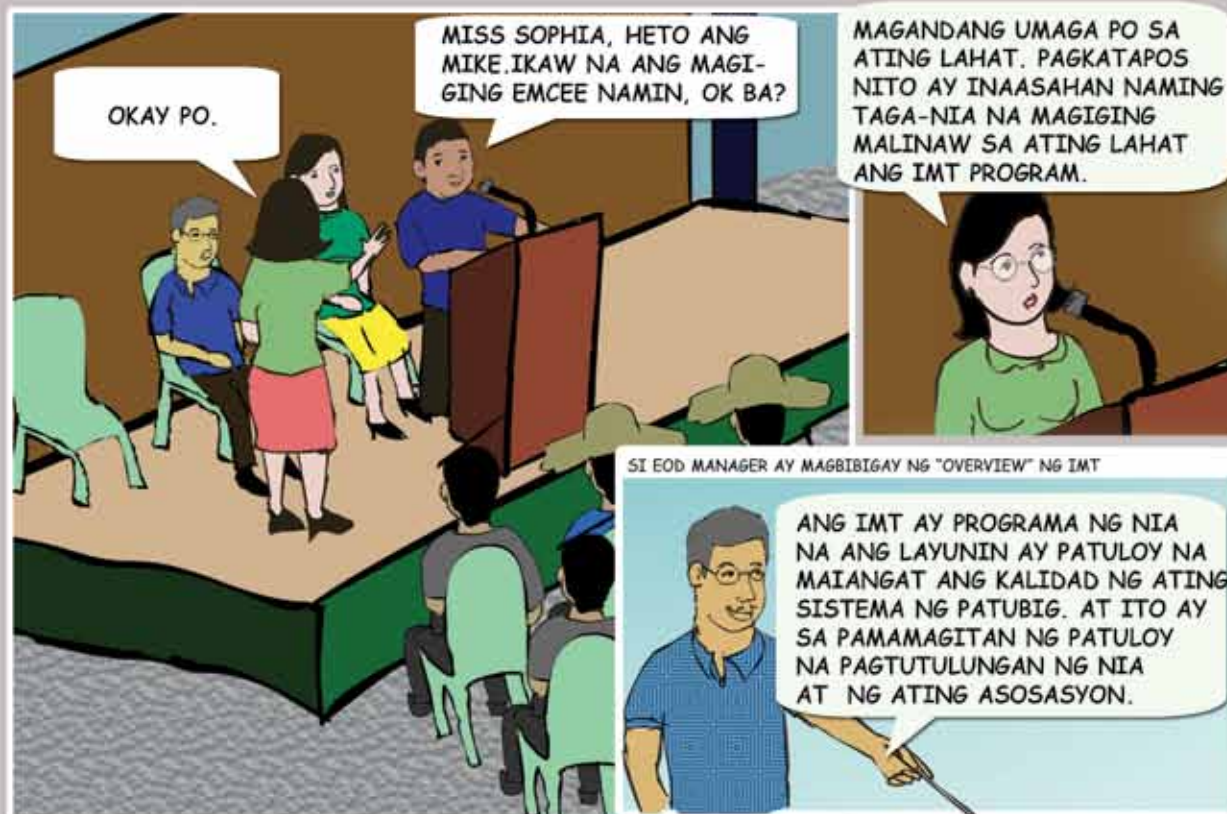

Ang komiks na ito ay inilathala upang lubusan nating maunawaan kung ano ang **IRRIGATION MANAGEMENT TRANSFER (IMT) PROGRAM** na ipinapatupad ng NIA

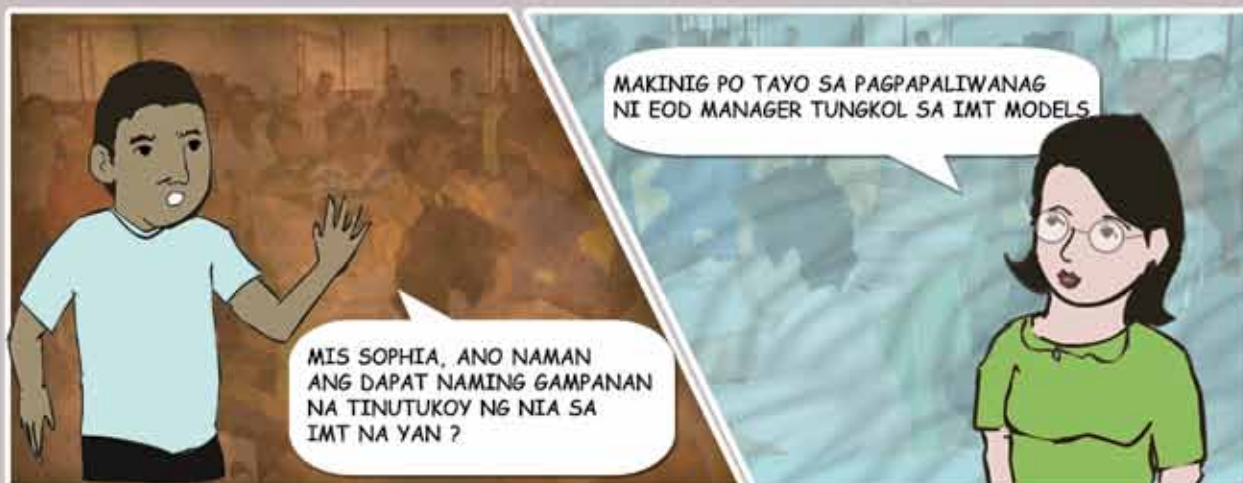

"DUMATING ANG TAKDANG ARAW. ISANG MALAKING PAGPUPULONG ANG NAGANAP. ANG LAYUNIN AY UPANG ISANGGUNI AT IPAALAM SA KAPULUNGAN ANG TUNGKOL SA IMT."

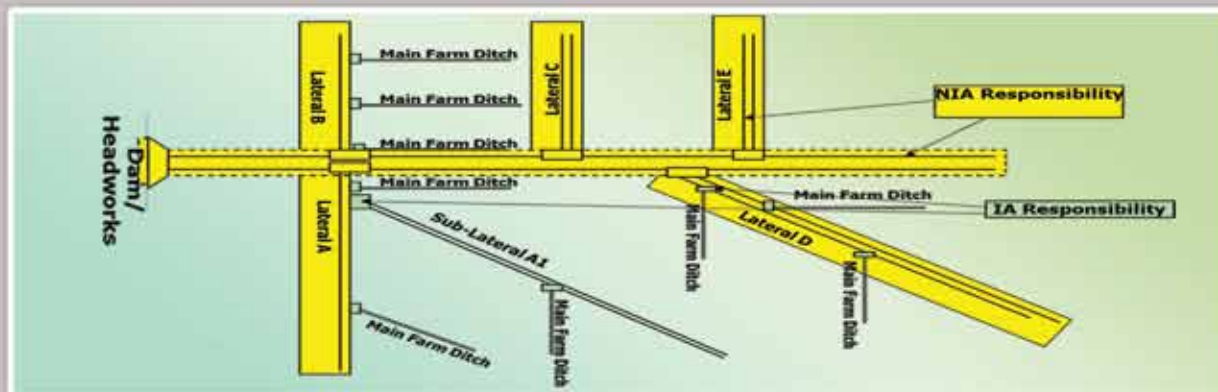

SA MEDYO DULO NG BULWAGAN AY NAGKAROON NG BULONG-BULUNGAN.

IPAPALIWANAG NI EOD MANAGER ANG IMT.

NIA manages the entire irrigation system but transfers to the IA specific O&M activities: canal maintenance, discharge monitoring, preparation of list of irrigated and planted areas, distribution of ISF and campaign for ISF payment by farmers. Actual ISF collection may be an added responsibility depending on capacity and willingness of the IA.

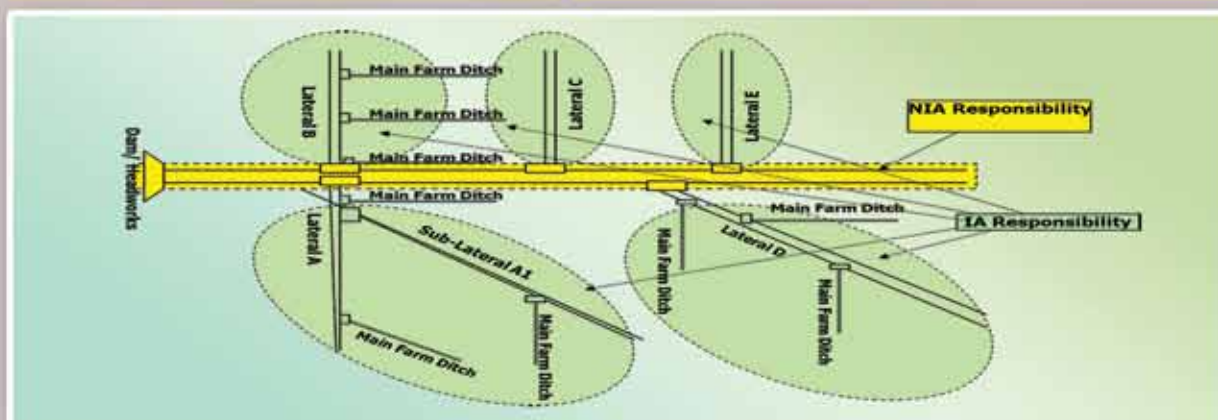

MODEL 1**IA Compensation/ Share****For canal maintenance:**

-Compensation will be negotiated by NIA and IA and shall be based on standard labor capacities in clearing /maintaining canal and wage rate promulgated by Regional Wage Board.

For assisting in specific operation activities:

-Incentive is based on actual improvement on the NIA and IA agreed base ISF collection level. Suggested base ISF collection level is 55%.

-Once the collection level is agreed, the IA will start to have share of ISF collection above the agreed level. Maximum IA share is 15% (if collection is 100%)

**MODEL 2**

NIA manages the main system, from headworks to the main canal down to the headgates of lateral canals, and transfers to the IA the management of the laterals, sub-laterals and terminal facilities.

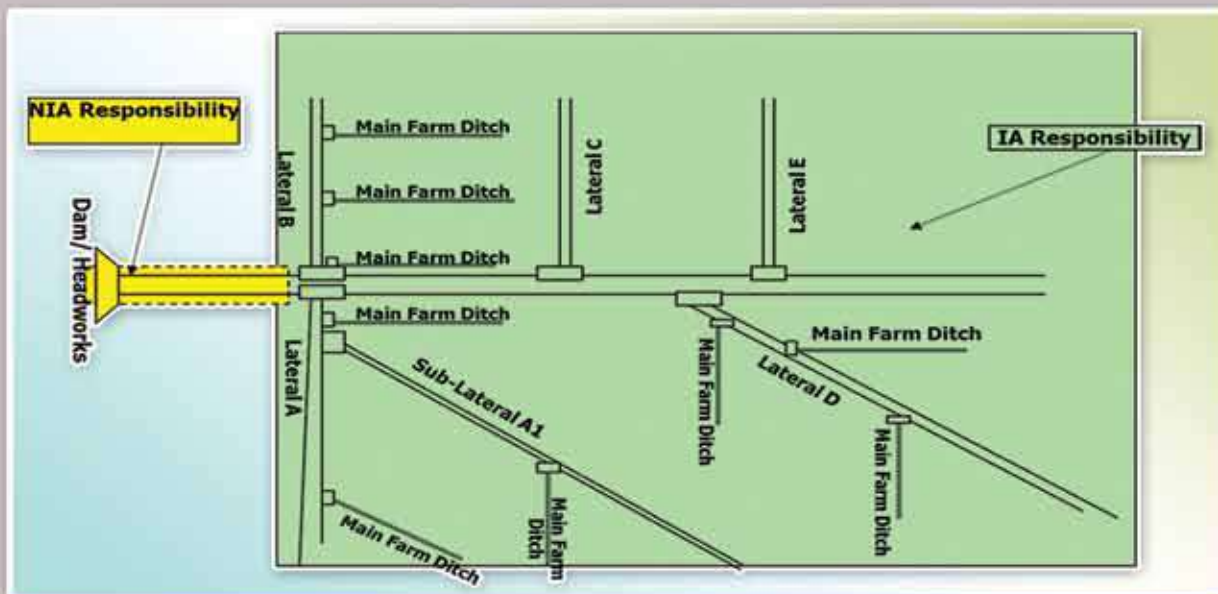

IA Compensation/ Share in ISF collection**For gravity systems:**

-IA share from the current account collections shall be subject to negotiation with NIA based on the concept of fair sharing

responsibilities (burden) and benefits. The Break-Even concept is used in determining each party's share.

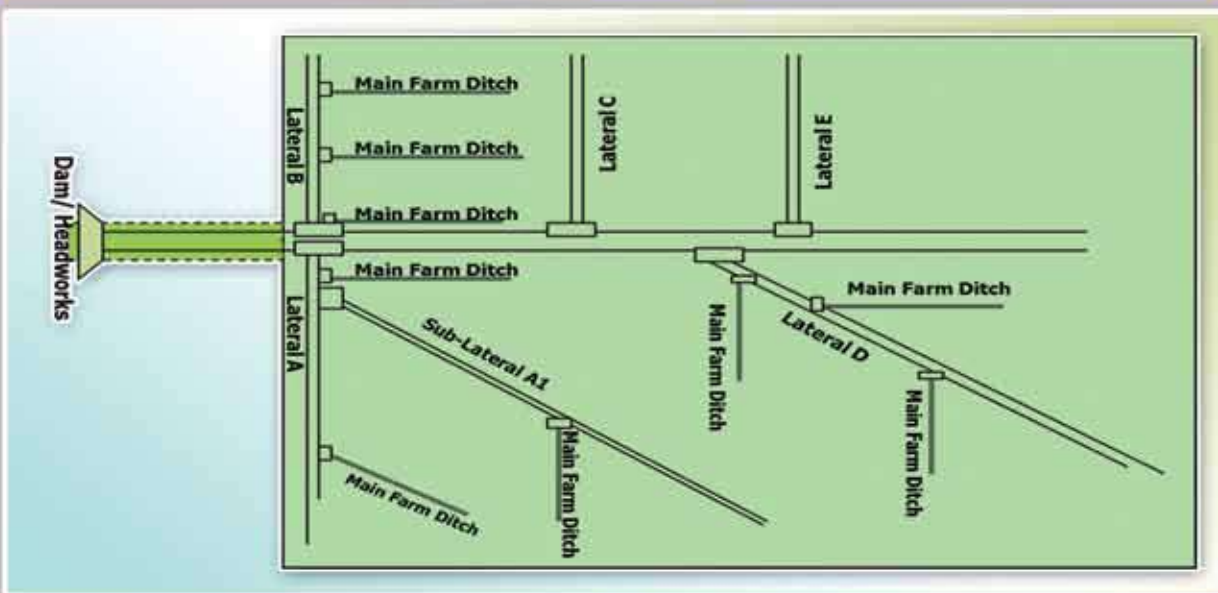

For Pump systems:**Sharing collections in excess of the energy cost**

- to be negotiated by the IA and the NIA based on the concept of fair sharing of burden and benefits also using the Break-Even concept in determining IA and NIA share.

Model 3 - NIA manages the headworks and portion of the main canal up to the junction of the first lateral canal and transfers to the IA the management of the rest of the system downstream of the specified junction

IA Compensation/Share - For Gravity systems (same as in Model 2)
- For Pump (same as Model 2)

MODEL 4

NIA completely transfers to the IA the management of the entire system including the headworks and stops all its activities on the management of the system except monitoring and evaluation, and technical supervision as may be requested by the IA.

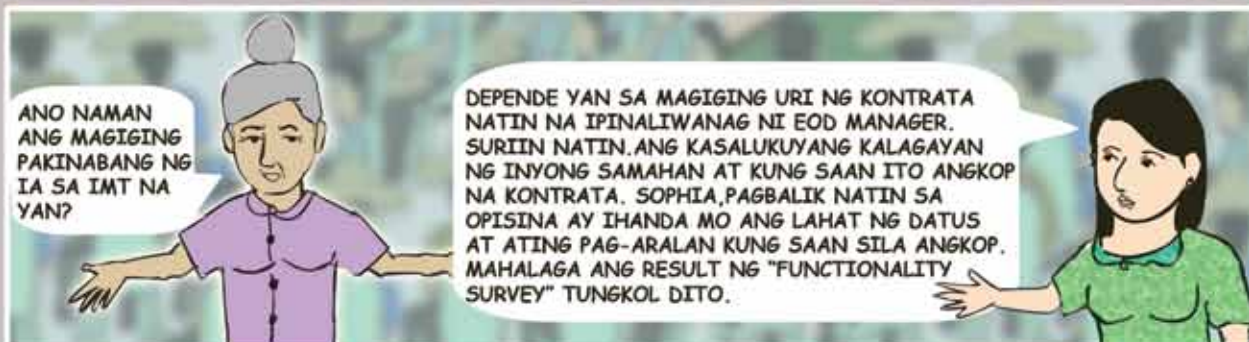

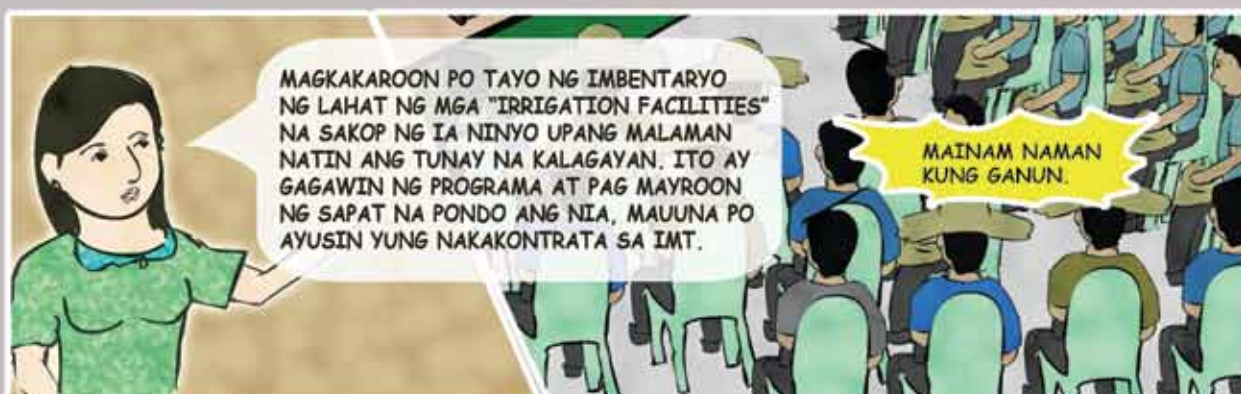

Compensation:

The IA pays NIA a System Rental Fee (SRF) = 1.50 cavans (75 kg) of dry paddy per hectare per year
- computed at government support price at the time of billing
- based on the firm-up Service Area (FUSA) of the system.

SRF covers the cost of technical assistance and the cost of using the irrigation facilities.

SRF may be paid by IA in 2 equal installments

Other Transfer Options (on a case-to-case basis) NIA-IA-Local Government Unit;
Long-term lease contract; Management by competent third parties

KAPAG MAY DAPAT AYUSIN NA SAKOP NG GAMPANIN NG NIA, ANG PONDO SA PAG-AFOS AY KUKUNIN DIN SA NIMF

Isang araw sa Tanggapan ng MAANI IRRIGATORS ASSOCIATION, habang ang mga namumuno nito at ang Board of Directors ay nagpupulong

Tatalakayin natin ngayon ang ating mga gastos sa loob ng isang panahon ng pagtatanim at ang kabuuan nito sa isang taon.

Siyanga!! Nang sa gayun ay malaman natin ang Kabuuang gastos ng ating IA

Isama na natin ang sweldo ng kukunin nating "Bookkeeper"

at saka yung Professional Fee ng Accountant.

Sige dapat maipaliwanag natin mabuti sa NIA ang mga gastusin nating ito.

Mga kasama sa susunod pong linggo ay makikipag pulong tayo sa NIA upang mapag-usapan ang Model Contract na ating papasukin. Kausap natin ang NIA.

Dadalo po kami!!

OK! magsama-sama tayo sa talakayan.

Nagpulong din ang Management ng Region upang tiyakin ang "Break-Even Cost". Dito ay kasama ang lahat - Regional Manager, Manager ng Engineering & Operations Division, Administrative & Finance Manager, Institutional Division Chief at mga Chief ng Irrigation Management Offices at doon ay nagbuo ng TWG upang lubusang pag-aralan ang BEC

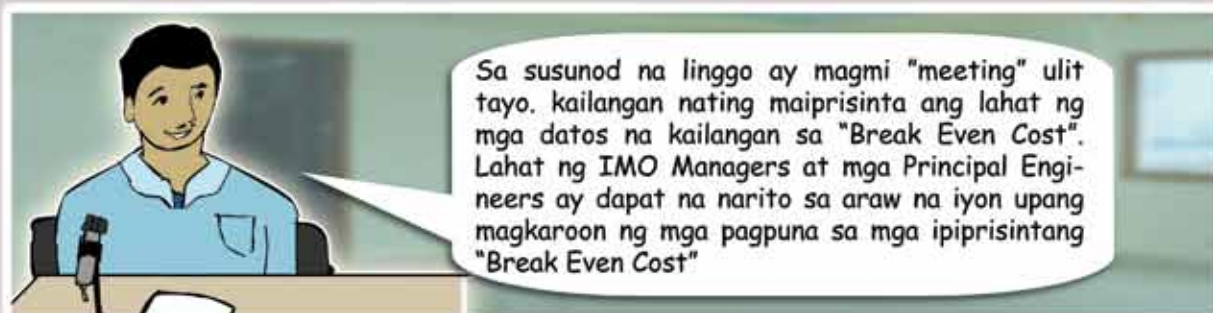

Ang TWG ay nagsasagawa ng mga konsultasyon upang malaman ang BEC

Magandang umaga po, Ipinatawag ang miting na ito upang talakayin natin ang "Break Even Cost" ng ating Region. Isa-sama natin lahat ng ating mga expenses tulad ng mga pasuweldo sa ating mga empleyado at kanilang mga "terminal leaves".

Ihanda natin ang mga data per system. Ang mga systems na "viable" ay patuloy na tutulong sa mga "maliit pa nating kapatid" upang magkaroon tayo ng patas na hatian sa lahat ng systems at Irrigators Association ng ating region.

Matapos ang isang linggo..... Nagkaroon ng miting sa conference room ng regional office at pagkatapos ng isang linggo, nagkaroon ng muli ng pagpupulong.

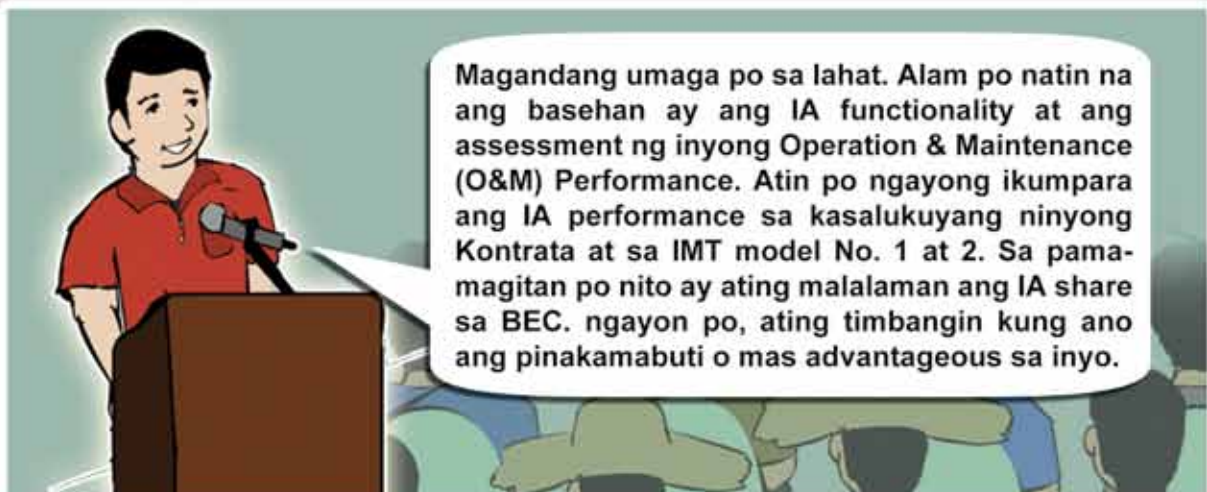

Good morning sa inyong lahat. Ito ang mga costs involved sa region natin

Ngayong napag alaman na natin ang resulta, e magpatawag na tayo ng meeting kasama ang mga opisyal ng IA.

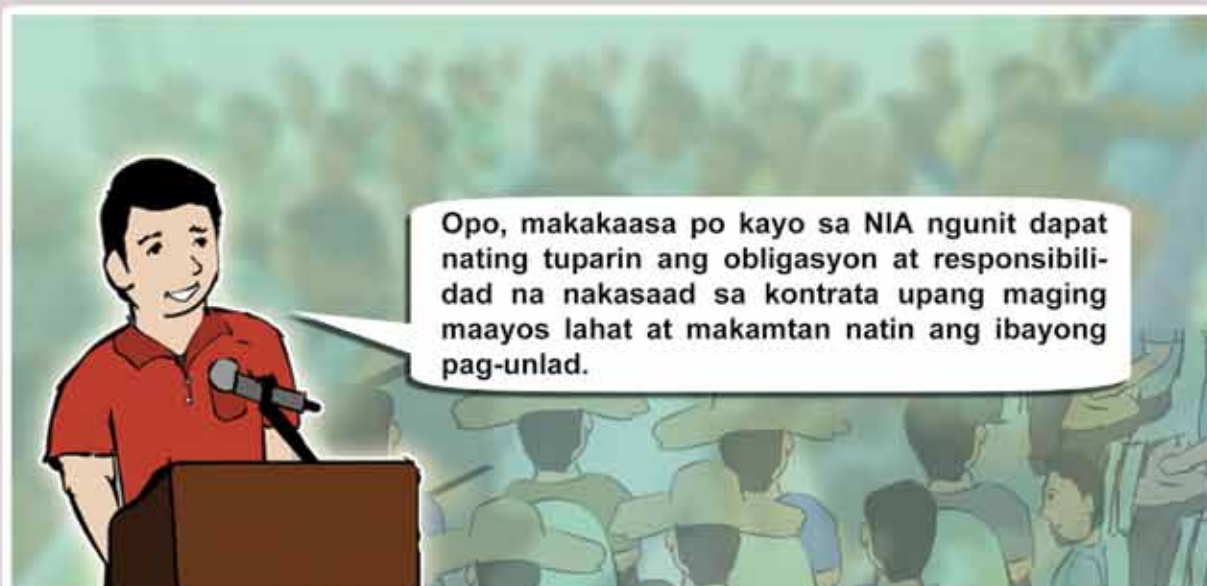

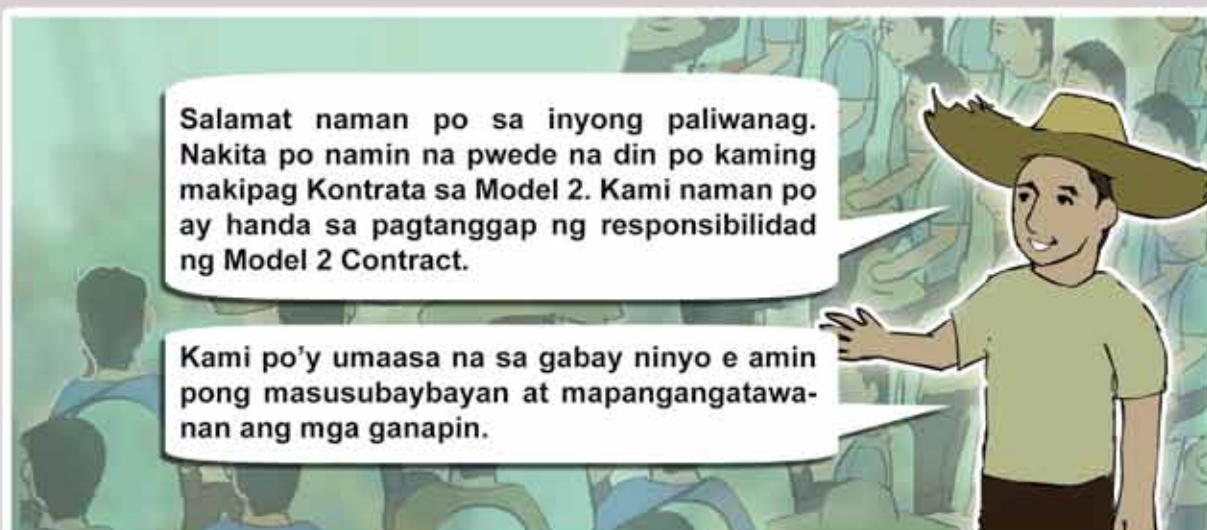

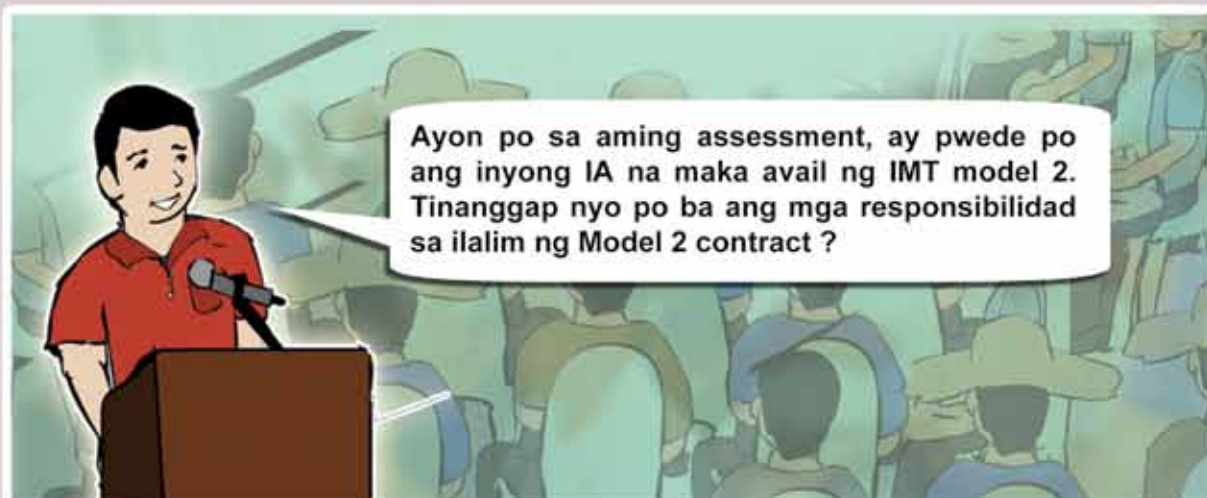

Martes, alas otso ng umaga... nagtipon ang mga opisyaes ng IA at NIA TWG.

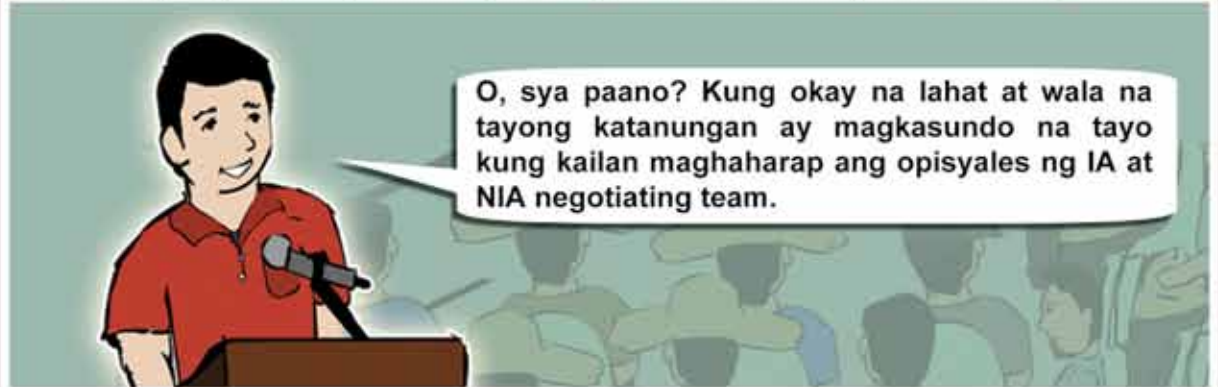

Nagpapaliwanagan pa... at tinitimbang kung anong model contract eligible ang IA

Nagkaroon pa ng ilan pang konsultasyon at pagkatapos na maisaayos ng TWG ang lahat-lahat

At dumating ang takdang panahon ng pagpupulong ng TWG negotiating team at opisyaes ng IA

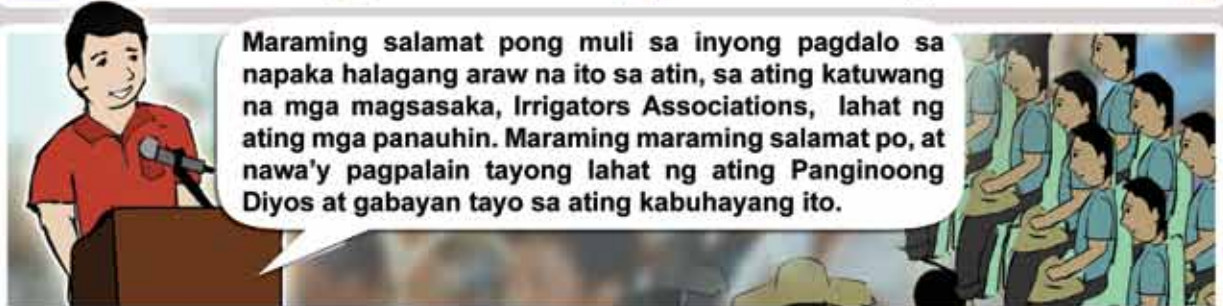

Nagkasundo na ang lahat at nagtakda sila ng petsa ng Contract Signing .

Contract Signing

Sabado, alas diyes ng umaga sa Bulwagan ng Bayan. Maraming dumalo.. Mga kasapi ng IA at maging ang mga hindi kasapi, Local Government Units Officials, Barangay Officials, at mga opisyal at empleyado ng NIA

IRRIGATION MANAGEMENT TRANSFER (IMT) PROGRAM ACCOMPLISHMENT:

The National Irrigation Administration (NIA) has 217 national irrigation systems (NIS) with a service area of 793,638 hectare (ha) and a firmied-up service area (FUSA) of 712,789 ha benefitting 584,351 farmers as of the end of CY 2012.

IRRIGATION MANAGEMENT TRANSFER (IMT)

Program Accomplishment as of end of CY 2012

(NATIONWIDE)

Particulars		Total	Under IMT as of End of				Remaining Target	
			2011		2012			
			No.	%	No.	%	No.	%
No. of NIS	217							
Service Area (ha)	793,638							
FUSA	712,789							
No. of FBs	584,351							
No. of IAs	2,738	992	36.23%	1,845	67.38%	893	32.62%	
IA Area (ha)	645,296	237,005	36.73%	432,931	67.09%	212,365	32.91%	

As of the end of 2011, out of 2,738 Irrigators Association (IAs), 36.23% or 992 IAs were under IMT, and at the end of 2012, increased to 67.38% or 1,845 IAs. For the current year there are about 32.62% or 893 IAs possible to avail IMT program.

IMT PROGRAM ACCOMPLISHMENT

As of End of CY 2012

By Transfer Model

(Nationwide)

Model 1	Model 2	Model 3	Model 4
1,026 IAs 55.58%	790 IAs 42.80%	27 IAs 1.46%	2 IAs 0.11%
230,435 ha	187,383 ha	8,228 ha	667 ha

Sa Liwasang Aurora, Quezon Memorial Circle, Lungsod ng Quezon, ang ika-25 ng Pebrero, 2013 ay itinuring na "Commitment Day" ng National Year of Rice kung saan ang lahat ng mga opisyaes at empleyado ng mga ahensyang nasasakupan ng Department of Agriculture sa pamumuno ni Secretary Proceso J. Alcala ay sabay sabay na binigkas ang "Panatang Makapalay". Ang "Panatang Makapalay" ay naglalayong tumulong na maging sapat ang bigas sa Pilipinas. Kasama ang mga opisyaes at kawani na pinamumuan ni Administrator Antonio S. Nangel, ang NIA ay masiglang nakilahok sa nasabing Gawain.

PANATANG MAKAPALAY

(Ilagay ang kanang kamao sa dibdib)

Bilang isang mamamayang Pilipino
nakikiisa ako sa panatang huwag magsayang
ng kanin at bigas.

**Magsasaing ako ng sapat lamang
at sisiguraduhing tama ang pagkakaluto nito.**

Kukuha ako ng kaya kong ubusin upang sa aking pinggan
ay walang matirang kanin. Ganun din ang aking gagawin
kung may handaan o kung sa labas ako kakain.

**Ang brown rice o pinawa ay susubukan kong kainin,
pati na ang ibang pagkain bukod sa kanin
tulad ng saba, kamote, at mais.**

Ituturo ko sa iba ang responsableng pagkonsumo
nang mabigyang halaga ang pagod ng mga magsasaka
at nang makatulong na maging sapat
ang bigas sa Pilipinas.

**Aking isasapuso ang panatang ito
dahil sa bawa't butil ng bigas
o kanin na aking matitipid
ay may buhay na masasagip.**
